I hereby agree and approve that the specifications in this document constitute the complete scope of this project and will consequently meet the business and functional needs. Any requirement not explicitly mentioned in the specifications will be considered out of scope for this project. After approval, any additions and changes to this document or referred objects will be pursued through the change request process.

Work Status			
S.NO	Module	Task	Status
1	Dhara Module	Mobile Application: New Features Implemented to capture meter status with the categories like Functional Meter, Meter Replaced, Non-Functional Meter, No Water Supplied	Completed
2	Dhara Module	New Reports Developed: Monthly Water Supply Report	Completed
3	Dhara Module	New Reports Developed: Village-Wise MWSR Report	Completed
4	Dhara Module	The existing <i>MWSR Report</i> has been renamed to <i>UFW Report</i>	Completed
5	Dhara Module	Drill down feature added to the reports for better data navigation.	Completed
6	Sopan Module	New Features Added: Upload functionality for <i>Panchnama Report</i> and <i>Approved Design & Drawing Report</i> . Option provided for users to upload <i>additional supporting documents</i> .	Completed
7	Sopan Module	New report created for the OHT details monitoring	Completed
8	Sopan Module	Feature developed for capturing <i>intake details</i> . (Document upload functionality for this will be completed by end of day.)	Completed
9	Asset Mapping	New functionality added to download <i>Executed</i> and <i>Planned</i> data.	Completed
10	Asset Mapping	OHT (Overhead Tank) labels have been added for improved visualization	Completed
11	Nirmal	Contractors can now capture water sample data directly in the system.	Completed
12	Dhara	Developing <i>meter reading editing</i> functionality for GM login.	Completed
13	Sopan	Continuing development in <i>Sopan Module</i> for capturing <i>WTP (Water Treatment Plant)</i> details.	Completed

Work Status			
S.NO	Module	Task	Status
1	Anushravan	Mobile application links with Sopan OHTs, once contractor add details in Sopan then only able to raise RFI	Completed
2	Anushravan	OHT name added in RFI	Completed
3	Asset Maping / Dhara	Renaming of OHTs	Completed
4	Asset Mapping	New functionality added to download Executed and Planned data.	Completed
5	Asset Mapping	OHT (Overhead Tank) labels have been added for improved visualization	Completed
6	Asset Mapping	OHT,Intake,WTP, movement functionality	Completed
7	Asset Mapping	As Built Survey data 3 schemes- publish	Completed
8	Asset Mapping / Dhara	Deleting Duplicate Entries of Components	Completed
9	Bharosa	Factory Testing	Completed
10	Changes User management	Multiple scheme Sqc & Tpia id - change in RFI flow	Completed
11	Dhara	GM given all option -Dhara Entry	Completed
12	Dhara	Mobile Application: New Features Implemented to capture meter status with the categories like Functional Meter, Meter Replaced, Non-Functional Meter, No Water Supplied	Completed
13	Dhara	New Reports Developed: Monthly Water Supply Report	Completed
14	Dhara	New Reports Developed: Village-Wise MWSR Report	Completed
15	Dhara	The existing MWSR Report has been renamed to UFW Report	Completed
16	Dhara	Drill-down feature added to the reports for better data navigation.	Completed
17	Dhara	Developing meter reading editing functionality for GM login.	Completed
18	Dhara	Billing of O&M Contractors	Completed
19	Dhara	Mapping of villages with different components	Completed
20	Dhara	Same Village issue identified and resolved	Completed
21	Dhara	Date Range option in meter reading approval pages	Completed
22	Dhara	The report of Dhara is visible to the contractor	Completed
23	Dhara	Work needs to start on the Sub Meter Option on Web	Completed
24	Dhara	On the web, we also need to provide the option to select the meter type during editing at GM	Completed
25	Dhara Module	Resolve the issues of 2 OHTs during mapping	Completed
26	Dhara Module	Correction of Dhara Reports	Completed
27	Dhara Module updation	Updation Dhara module	Completed
28	Dhara Reading approved	Date wise Dhara reading approved	Completed
29	FSTC Module	Work started on the FSTC Module, API received for the integration with Jal Samagra	Completed
30	Geoportal	Search option	Completed
31	Master	Pipeline master	Completed
32	Nirmal	Functionality for contractor to take water samples	Completed
33	Nirmal	In Nirmal, we need to change the parameters range	Completed
34	Pile Line master in Mobile	Generate RFI Contractor (Pipe line Master Data)	Completed
35	Pile Line master web	Show in Report Pipe line master data (RFI)	Completed
36	Pipeline Master	Reports of pipeline master with drop down functionality	Completed
37	Pipeline Master	CWPM, CWGM need to add zones numbers	Completed
38	Pipeline Master	Zone number added in CWPM component	Completed
39	Reports	All reports are made available to all logging with there respect to there area	Completed
40	Sc Name short in Application	Short Name of Schemes	Completed
41	Shabhagita	Activity Upload through Web Portal	Completed
42	Shabhagita	Multiple Photo Upload	Completed
43	Shabhagita	Activity Delete Option for GM	Completed
44	Shabhagita	New Report need to add in Shabhagita	Completed
45	Sopan	New Features Added: Upload functionality for Panchnama Report and Approved Design & Drawing Report. Option provided for users to upload additional supporting documents.	Completed
46	Sopan	New report created for the OHT details monitoring	Completed
47	Sopan	Feature developed for capturing intake details.	Completed
48	Sopan	Functionality to Edit Planned Dates at GM login	Completed
49	Sopan	Functionality to Add Actual Dates at GM login	Completed
50	Sopan	Functionality for GM to add remarks	Completed
51	Sopan	Sopan Module for capturing WTP (Water Treatment Plant) details.	Completed
52	Sopan	Sopan module for capturing Intermediate Pumping Station (IPS) Details	Completed
53	Sopan	Option to finalize plan start and plan completion	Completed
54	Sopan Module WTP	Need to provide the functionality for finalized the planed date at GM login	Completed
55	Sopan Module WTP	Design and Panchnama (Each activity)	Completed
56	Sopan Report	Report Hyperlink	Completed

Work Status			
S.NO	Module	Task	Status
1	Module Names in Hindi	IISC – परिणाम Parinam	Done
		O&M – आकलन Aaklan	
		Master – विस्तृत Vistrit	
2	Dhara	1. Dhara Report approve Villiage wise or OHT -Village wise for a Range of each	Done
		2. OHT Meter survey - dividde into 2 columns i) OHT Reading ii) OHT Water supply Status	Done
3	Bharosa	1. Factory Testing - Add sub component item and its matching electrical component (updated list need to be provided by department	Done
		2 Factory Testing - Add "Any Other" option in Sub component & Item drop down and then Surveyor can write name in textbox	Done
4	Nirmal & it's Reports	1. Action on failed samples - into 2 columns i) failed sample rectified & document upload by contractor will be approved by GM (action on failed samples)	Done
		2 "Raw water wise test report" name change to "Raw water test report"	Done
		3 Remove 2 columns - No of samples failed and No of samples passed and Remove wise in the report	Done
		4 WTP Water test report - change 0.2 to 0.5 level of chlorine	Done
		7. In Nirmal Final Report results failed parameter should appear in "RED Color"	Done
5	Anushravan	1 RFI transfer to new SQC already discuss with Balkrishnan and he will send the details	Done
		2 GM can remove SQC & TPIC RFIs & SQC TPIA can remove FE RFI's (if loop is not currently running)	Done
		3 Sorting to be done on - Reinspections and Rejected RFI's	Done
		4 Contractor should see FE's Comments	Done
6	Sahbhagita	1) Show video at PM Manager ID login also, as it is visible to GM login	Done
7	Issues	1) Contractor when mapping - SQC/TPIA then their mobile number should be shown with their ID	Done
		2) Chindwara and Ujjain issue of village not showing mapping issue	Done
		3) Where Habitation not available there we can show village name	
		4) When reading is 0 zero & showing no water supply - Remove that condition	Done
		5) DeGM Chhatarpur - Date on web & Sorting to be done on - Reinspections and Rejected RFI's & Contractor should see FE's Comments	Done
		6) SQC's can Reset Password feature	Done
