

E-AABKARI MADHYA PRADESH - MOM 28.05.2025

1. Vehicle Inward Mobile App (e-Token Generation)

- **Testing:**
 - The e-token generation feature is to be tested at the Bhopal Warehouse to validate the vehicle inward process through the mobile app.
 - E-token generation at Bhopal Warehouse to document the issue after it goes live.
- **Enhancement Requirements:**
 - For vehicle inward app, distance of 100 meters from warehouse has to be maintained.
- **Permit Revalidation:**
 - If a permit has expired, the system should prompt for revalidation before allowing further operations.

2. Vehicle Unloading Process

- **Seasonal Unloading Logic:**
 - Unloading will be based on the type of liquor (e.g., beer, whiskey, wine), and for the next 3 months, beer unloading will be prioritized.
 - Apart from three months, in other months vehicles will be unloaded as per queue and e-token
- **Retailer Notification:**
 - At the time of vehicle unloading, a notification should be sent to retailers regarding the availability of materials, enabling them to book the goods accordingly.

3. Penalty Notification

- **Retailer Penalty SMS**
 - Retailers should receive automated weekly SMS notifications regarding any penalties incurred.

4. Log Manager Enhancements

- **Mobile Number Update Restriction:**
 - Users should not be allowed to update mobile numbers directly through the Log Manager.

5. FL-5 License Management

- **FL-5 Licensing:**
 - FL-5 licenses to be issued based on the number of personnel associated with the operation.

6. Samagra ID & Aadhar Integration

- **Madhya Pradesh Residents:**
 - Integration with MP Samagra ID is required.
- **Out-of-State Residents:**
 - Integration with Aadhaar to be implemented for non-MP individuals.

7. Project Payments Details:

- MP e-Aabkari project payment details.
- MP e-Aabkari WhatsApp service payment details.
