

(A)

1.) GENERAL DETAILS

(i)

2.) Type of Road *

Select

(ii)

3.) RD of inspection

~~Location~~ ^{stretch} of Road x to y
Ex: Mata Mandir to MANIT

1.) From RD (in m) *

(iii) Length of stretch visited (m)

Ex 1

500 m

2.) To RD (in m) *

(iv)

4.) Physical status of work *

Select

(v)

5.) Present status of work *

Select

6.) QUALITY ARRANGEMENTS-OBSERVATIONS

(vi) 7.) Whether field laboratory established *

Select

(vii) 8.) Whether location of field laboratory is same as indicated by ULB in format part-I *

Select

(viii) 9.) Whether necessary equipments ^{for testing} as indicated in part-1 are actually available *

Select

(ix) 10.) Whether equipment's have been used *

Select

11.) If all necessary equipments are not available, whether you have verified them with the list of deficient equipment's provided by ULB in format Part-I *

Select

(x) 12.) Whether contractor's engineer ^{is} as per Part-I of this format, is available at site *

Select

13.) If contractor's engineer as per Part-I of this report is not available, whether you are satisfied with alternative arrangement made to maintain QCR *

Select

14.) Quality of Material and Workmanship

B. Type of Road

Bitumen ✓
Parakh
CC
WSM

(This data is for Bitumen Road only)

1.) Location (RD)

(i) 2.) Conforms to Grading *

☐ Yes ☐ No

(ii) 3.) Material Suitable from plasticity angle *

☒ Yes ☐ No(iii) 4.) Dry density (in kN/m³) *

(iv) 5.) % Compaction *

(v) 6.) Whether compaction is adequate *

☐ Yes ☐ No

(vi) 7.) Thickness as per DPR (in mm) *

(vii) 8.) Measured Thickness (in mm) *

(viii) 9.) Prescribed Thickness provided *

☐ Yes ☐ No

(a) GSB

(i) 15.) Whether GSB has been constructed in layers *

Select

(ii) 16.) Whether compaction has been done as per the provision in DPR *

Select

(iii) 17.) Item Grading *

Select

18.) ~~BASE COURSE~~. 1st Layer

(b) Base Course first layer

(i) 19.) Provision made in the first layer in sanctioned DPR *

Select

(ii) 20.) Item execution status *

Select

(iii) 21.) Actual execution in first layer of the Base course *

Select

(iv) 22.) Reason for change in actual execution at site w.r.t provision made in DPR

23.) Quality of Material and Workmanship of BASE COURSE - 1st Layer

1.) Location (RD)

(v) 2.) Grading of Aggregates * of Base Course

Select

(vi) 3.) Plasticity of Filler material *

(vii) 4.) Volume of filler material percent of coarse Aggregate *

(viii) 5.) Compaction based on volumetric analysis *

(viii) 6.) Design thickness as per DPR (in mm) *

(ix) 7.) Thickness of each layer of WBM/ WMM (in mm) *

(x) 8.) Thickness adequate * ?

(xi) 24.) Item Grading *

Select

C 25.) BASE COURSE: 2nd Layer

(i) 26.) Provision made in the 2nd layer in sanctioned DPR *

Select

(ii) 27.) Item execution status *

Select

(iii) 28.) Actual execution in 2nd layer of the Base course *

Select

(iv) 29.) Reason for change in actual execution at site w.r.t provision made in DPR

~~30.) Quality of Material and Workmanship of BASE COURSE - 2nd Layer~~

1.) Location (RD) *

(vi) 2.) Grading of Aggregates *

Select

(vi) 3.) Plasticity of Filler material *

Select

(vii) 4.) Volume of filler material percent of coarse Aggregate *

(viii) 5.) Compaction based on volumetric analysis *

Select

(ix) 6.) Design thickness as per DPR (in mm) *

(x) 7.) Thickness of each layer of WBM/ WMM (in mm) *

8.) Thickness adequate *

(xi) 31.) Item Grading *

d. 32.) BITUMINOUS BASE COURSE

(i) 33.) Provision made in the sanctioned DPR *

(ii) 34.) Item execution status *

(iii) 35.) Actual execution at the site *

(iv) 36.) Thickness of layer as per DPR in mm *

(v) 37.) Type and grade of binder used *

(vi) 38.) Brand name of bitumen *

(vii) 39.) Whether the invoices for the whole quantity of bitumen used at site are available *

Select

(viii) 40.) If the invoice of sufficient quantity not available reason thereof *

(ix) 41.) Bitumen Content as per DPR (in %) *

(x) 42.) Whether mix design is done: (in case of BM or DBM) *

Select

(xi) 43.) Marshal stability as per mix design (in case of BM or DBM) in kN *

(xii) 44.) Whether inspection of hot mix plant done by SQM /SE *

Select

45.) Quality of Material and Workmanship of BITUMINOUS BASE COURSE

1.) Location (RD) *

(xii) 2.) Grading of Coarse Aggregates *

Select

(xiv) 3.) Laying Temperature of the mix as per Norms *

(xv) 4.) Bitumen content % As per Norms *

(xvi) 5.) Bitumen content % As measured by SQM *

(xvii) 6.) Bitumen content % *

Select

(viii) 7.) Marshal stability as per Norms (KN) *

(vix) 8.) Observed thickness of layer as measured by SQM *

(x) 9.) Observed thickness of layer (mm) *

(xxi) 46.) Item Grading *

(e) 47.) BITUMINOUS SURFACE COURSE

(i) 48.) Provision made in the sanctioned DPR *

(ii) 49.) Item execution status *

(iii) 50.) Type of bituminous surface executed *

Select

(iv) 51.) Thickness of layer as per DPR in mm *

(v) 52.) Type and grade of binder used *

(vi) 53.) Brand name of bitumen *

(vii) 54.) Whether the invoices for the whole quantity of bitumen used at site are available *

Select

(viii) 55.) If the invoice of sufficient quantity not available reason thereof *

(ix) 56.) Bitumen Content as per DPR (in %) *

(x) 57.) Whether mix design is done: (Only in case of SDBC or BC) *

Select

(xi) 58.) Marshal stability as per mix design (Only in case of SDBC or BC) in kN *

(xii) 59.) Any signs of distress on surface *

Select

(xiii) 60.) Quality of Material and Workmanship of BITUMINOUS SURFACE COURSE

1.) Location (RD) *

(xiii) 2.) Grading of Coarse Aggregate *

Select

(xiv) 3.) Laying temperature of the mix as per the test result *

(xv) 4.) Bitumen content % As per Test-I *

(xvi) 5.) Bitumen content % As measured by SQM *

(xvii) 6.) Bitumen content % *

(xviii) 7.) Observed thickness of layer As measured by SQM *

(xix) 8.) Observed thickness of layer *

(xx) 9.) surface unevenness *

(xxi) 10.) Item Grading *

(A) 11.) SHOULDERS

(1) ~~63.~~ 63.) Item execution status *

Select

(1) ~~64.~~ 64.) Quality of Shoulders

1.) Location (RD) *

2.) Quality of the Material from hand feel test *

Select

2 3.) Degree of Compaction As per Test result *

3 4.) Degree of Compaction As measured by SQM (%) *

4 5.) Degree of Compaction *

(E) CAMBER

(i) 64.) Camber As per DPR (%) *

(ii) 65.) Camber as measured by SQM (%) *

(iii) 66.) Camber Grading *

(iv) 65.) Item Grading *

(C) 66.) CEMENT CONCRETE PAVEMENTS

(i) 67.) Type of Cement Concrete Pavement *

(ii) 68.) Provision made in the sanctioned DPR *

(ii) 69.) Item execution status *

(iv) 70.) Grade of Concrete as per DPR *

(v) 71.) Expansion Joints Sealing *

(vi) 72.) CC pavement length proposed as per sanctioned DPR

1.) Proposed length (in m) *

2.) Executed length (in m) *

73.) Observations should be made for each portion of the CC course

(vii) 1.) Reference RD of CC pavements From (in m) *

2.) Reference RD of CC pavements To (in m) *

3.) RD at which observation was made (in m) *

4.) Quality of Concrete pavement *

Select

5.) 28 days Strength of Concrete as per Norms MPa *

6.) Quality of Work man's hip wearing surface, joints, edges etc

Select

7.) thickness As per DPR (mm) *

8.) Thickness As measured by SQM (mm) *

9.) Thickness acceptable *

☐ Yes ☐ No

(vii) 74.) Quality of cuts and joints is acceptable *

Select

(ix) 75.) Whether the joints have been properly filled with a sealant *

Select

(x) 76.) Whether surface texture of the pavement is acceptable *

Select

(xi) 77.) Whether any honeycombing observed on edges of pavement *

Select

(xii) 78.) Whether adequate camber is provided *

Select

79.) Check strength with rebound hammer; is it acceptable *

Select

80.) Item Grading *

Select

81.) OVERALL GRADING OF WORK

82.) Quality Control Arrangements

1.) Awarded Grades *

2.) Awardable Grades *

Select

83.) Attention to Quality

1.) Awarded Grades *

2.) Awardable Grades *

Select

84.) Geometrics

1.) Awarded Grades *

2.) Awardable Grades *

Select

85.) Granular Sub-base

1.) Awarded Grades *

2.) Awardable Grades *

Select

86.) Base Course (WMM-II)

1.) Awarded Grades *

2.) Awardable Grades *

Select

87.) Base Course (WMM -III)

1.) Awarded Grades *

2.) Awardable Grades *

Select

88.) Bituminous Course (BM and DBM)

1.) Awarded Grades *

2.) Awardable Grades *

89.) Bituminous Surface Course (OGPC/ Seal coat/ SD/SDBC)

1.) Awarded Grades *

2.) Awardable Grades *

90.) Shoulders

1.) Awarded Grades *

2.) Awardable Grades *

91.) Cement Concrete Pavements

1.) Awarded Grades *

2.) Awardable Grades *

92.) Overall Grading

1.) Awarded Grades *

2.) Awardable Grades *
