Dear Manisha,

Please find the revised form with specifications for all fields. Kindly target the release of the first form by Monday EOD and make it available in the UAT environment for verification.

Note: For fields where the options **Yes/No** and **Description** are specified, you may consider creating a sub-question to capture the relevant details.

@Neeraj Sir,

There are still certain fields in the form where the **Attachment** option may not be relevant. For such fields, we propose omitting the Attachment provision at this stage. Once the forms are released in the UAT environment and reviewed by your team, you may indicate any additional fields where an Attachment option should be incorporated, if deemed necessary.

Dear Manisha,

Please find the revised form with specifications for all fields. Kindly target the release of the first form by Monday EOD and make it available in the UAT environment for verification.

Note: For fields where the options **Yes/No** and **Description** are specified, you may consider creating a sub-question to capture the relevant details.

@Neeraj Sir,

There are still certain fields in the form where the **Attachment** option may not be relevant. For such fields, we propose omitting the Attachment provision at this stage. Once the forms are released in the UAT environment and reviewed by your team, you may indicate any additional fields where an Attachment option should be incorporated, if deemed necessary.

Dear Manisha,

Please find the revised form with specifications for all fields. Kindly target the release of the first form by Monday EOD and make it available in the UAT environment for verification.

Note: For fields where the options **Yes/No** and **Description** are specified, you may consider creating a sub-question to capture the relevant details.

@Neeraj Sir,

There are still certain fields in the form where the **Attachment** option may not be relevant. For such fields, we propose omitting the Attachment provision at this stage. Once the forms are released in the UAT environment and reviewed by your team, you may indicate any additional fields where an Attachment option should be incorporated, if deemed necessary.

Dear Manisha,

Please find the revised form with specifications for all fields. Kindly target the release of the first form by Monday EOD and make it available in the UAT environment for verification.

Note: For fields where the options **Yes/No** and **Description** are specified, you may consider creating a sub-question to capture the relevant details.

@Neeraj Sir,

There are still certain fields in the form where the **Attachment** option may not be relevant. For such fields, we propose omitting the Attachment provision at this stage. Once the forms

are released in the UAT environment and reviewed by your team, you may indicate any additional fields where an Attachment option should be incorporated, if deemed necessary.

Dear Manisha,

Please find the revised form with specifications for all fields. Kindly target the release of the first form by Monday EOD and make it available in the UAT environment for verification.

Note: For fields where the options **Yes/No** and **Description** are specified, you may consider creating a sub-question to capture the relevant details.

@Neeraj Sir,

There are still certain fields in the form where the **Attachment** option may not be relevant. For such fields, we propose omitting the Attachment provision at this stage. Once the forms are released in the UAT environment and reviewed by your team, you may indicate any additional fields where an Attachment option should be incorporated, if deemed necessary.
