Dear Ajeet Sir, Dheeraj,

Kindly find the attached ATR concept note, shared again for your reference.

As discussed earlier with Dheeraj sometime back, we need to provision the ATR module against inspection observations. Additionally, an offline inspection facility may also be considered for areas with poor network connectivity.

Kindly review and share your inputs.

Adarsh Sharma

Dear Adarsh,

As discussed and elaborated the inspection form fetches the data in an online mode to render, onto the mobile device. Also based on the selection criteria of the form fields, again the API is called, for this reason this particular form can't be converted fully into Offline mode.

We will explore other possibilities, if this can be stored offline somehow.

Kind Regards,
Ajeet Pal Singh
